Hourly output according to DIN 18873-2*	
Espresso / 2 Espressi	124 / 194 cups
Café Crème / 2 Café Crème	96 / 122 cups
Cappuccino / 2 Cappuccini	124 / 194 cups
Total hot water output / hour	143 cups
Energy loss per day according to DIN 18873-2	1.29 / 1.37 kWh
Topping / Basic Milk	
Coffee bean hopper	Right approx. 650 g, centered approx. 550 g
Chocolate or topping hopper (optional)	Approx. 1200 g
Outer dimensions (width / height** / depth)	325 / 675 / 590 mm
Water supply	Water tank (approx. 4 litres) or fixed water
Empty weight depending on configuration	Approx. 35 kg
Continuous sound pressure level (LpA)***	< 70 dB(A)

* Performance has been determined by a machine with a fixed water supply and is dependent on cup-size, quality settings, discharge, configuration and nominal output. The recommended maximum daily output is based on our catalogued service concept. However, these average values serve merely as a guideline. Let our trained WMF team match the ideal coffee machine design to your specific needs.

** Height including coffee bean hopper.

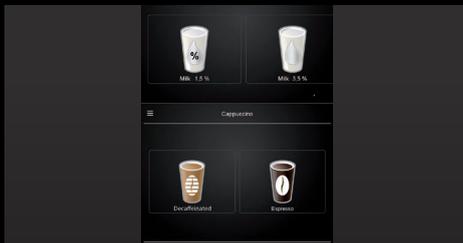

*** The A-rated sound pressure level LpA (slow) and LpA (impulse) at service staff work stations is under 70 dB(A) in any operating mode. Above 5° dKH (water hardness) a WMF water filter must be fitted.

Available with the following milk and steam systems:

OPERATING CONCEPT

Regardless of the location, the WMF 1500 S Classic is particularly easy to operate for all users. Both the settings and the beverage selection can conveniently take place via the intuitive touch display.

POST SELECTION FUNCTION

In the self-service area, beverage options can be requested by the guest via the PostSelection function on the display. They are guided step by step through the individual beverage options and crowned with the fully automatic preparation of their desired drink.

EASY MAINTENANCE

Basic maintenance tasks can easily be carried out by yourself. Making your machine a rare sight for the WMF service technician.

WATER SUPPLY

The option of having either a water tank or fixed water connection enables you to adapt to all requirements and any kind of water supply – keeping you flexible at work.

AUTOMATIC CLEANING

The cleaning functions are also designed to work perfectly in tandem with one another. Simple, fast and automatic, reducing daily tasks to a minimum.

WMF COFFEE CONNECT (AS AN OPTION)

The WMF CoffeeConnect digital solution allows you to fully leverage sustainable business models to increase the efficiency of your coffee enterprise.

ACCESSORIES

An extensive portfolio of add-on equipment from cup racks to countertop coolers to vending machines make the WMF 1500 S Classic flexible in use.
